

6th Grade
Global Warming
Action Conference

Thursday, February 28, 2008
6:30 p.m. – 8:00 p.m.

Renfroe Middle School

Parents and Guardians:

We are excited to announce our first global warming action conference. Students are furiously sifting through the facts and the misconceptions of global warming. They are determined to make up their own minds about this topic that they keep hearing about in the news.

You are invited to attend this interactive event. Come for the entire conference or just for a short time. Students will show off their products. They will also help you calculate your carbon footprint and show you how we used Google Earth to search for evidence of global warming. Mr. McMahon will show slides from his “summer” on the Greenland ice sheet.

Please sign below and return the bottom part of the page to Ms. Parker or Mr. McMahon to let us know that you received this invitation.
